

Learning Tools and Teaching Strategies Conversation Sheet

1. What are the traditional teaching strategies (actions the teacher takes during instruction) for your arts area? Are these strategies still successful? Under what circumstances and in what situations?
2. What are the traditional student learning tools (things students do along the way to creating, performing or responding to art) for your arts area? Are these tools still successful? For what types of students?
3. What new teaching strategies have been introduced in your arts area in recent years? How have they improved instructional practice? Are they more successful in some circumstances or situations?
4. What new student learning tools have been introduced in your arts area in recent years? How have they improved student learning? What types of students and learning styles do these tools address?
